TOPIC: Visit and presentations of the Department for Traffic Signalling, Faculty of Transport and Traffic Sciences, University of Zagreb

Department for Traffic Signalling has been established in 2001 and during last two decades had become the leading institution in the field of quality testing of traffic signalling in East Europe. For more than ten years, Department has accredited testing laboratory for quality testing of road markings and signs according to the EN 17025 norm. Moreover, Department is actively involved in the work of different national and European Committees (CEN/TC226 WG2 - Road Markings, CEN/TC226 WG3 - Traffic Signs, CEN/T226 WG12 - Road Interaction – ADAS etc.).

As agreed with Mr. Pavleski, representatives from the Department will come to Skopje (12-13.09.2022) in order to present Croatian experience in the quality testing of road markings and road signs. The presentation will include following topics:

1. Methodology for testing road markings and road signs
2. Impact of road markings and road signs quality on road safety and it's connection to automated vehicles
3. Road markings and road signs maintenance and management - Croatian case study
4. Demonstration of the measuring equipment for testing the retroreflection of road markings and road signs – dynamic retroreflectometer, static retroreflectometer, retroreflectometer for road signs

Asst. prof. Dario Babić, Ph.D.
