

Blueprint for Change in Construction sector: **BUILD GREEN**

*Establishing Green Building Council in North
Macedonia*

23 May 2024
Thursday

Chamber of Certified Architects and Certified Engineers
str. Partizanski odredi, #29, TC Bunjakovec, floor 2, unit 15,
1000 Skopje

Join us on **May 23, 2024**, for the workshop that the **RECONOMY** program is organizing to engage stakeholders in the building industry, such as developers, construction companies, design studios, real estate brokers, academia, NGOs, individuals, and governmental bodies willing to introduce market changes towards green building practices.

The event will enable strategic discussions, knowledge sharing, and cooperation aimed at establishing the Green Building Council of North Macedonia and contributing to the construction of sustainable buildings in North Macedonia and the Western Balkan countries.

RECONOMY is an inclusive and green economic development program of the Swedish International Development Cooperation Agency (Sida), implemented by HELVETAS Swiss Intercooperation in partnership with CeProSARD and others in the Eastern Partnership and the Western Balkan countries.

We hope to see you there!
